

Restricted Visiting

We need your help in preventing Covid-19 from entering our home- Argent Court has been directed out of an abundance of caution, to limit all visitors unless necessary. Only immediate family members who need to visit for critical or time-sensitive reasons such as Hospice will be permitted to enter- screening required for possible visitation.

If you have gone through the screening process and are permitted to enter- please immediately use hand sanitizer, sign in, and a staff member will assist you.

We know that family members and friends want to be with their loved ones during troubling times, but the current outbreak requires us to make every reasonable effort to protect our residents and staff. We believe in taking steps that focus on prevention, and this is the best way of reducing the risk.

For all other non-critical visits- we ask that you visit through email, Skype, Phone calls, and or Facetime.

We are happy to help our residents with those means of communication.

We appreciate your understanding of this challenging time we are all facing.
